Design methods for fragile fringes

curated by

Emilia Corradi, Valentina Dessì, Cassandra Cozza
Department of Architecture and Urban Studies - Politecnico di Milano

Welcome

Alessandro Rocca, AUID Head

Curators' introduction

Design solutions for urban climate

Sanda Lenzholzer, Department of Environmental Sciences - Wageningen University

Planter: planting forests for fragile territories restoration projects

Rosa De Marco - Sara Impera, AMP Architecture, milieu paysage - ENSA Paris La Villette - Hesam Université

Landscape design for interstitial spaces

Sara Protasoni, Dipartimento di Architettura, Ingegneria delle Costruzioni e Ambiente Costruito - Politecnico di Milano

Roundtable, q & a

AUID PhD Program promotes studies of architectural, urban, and interior design in all aspects. The methodological frame is the design-driven research, where design is the cultural environment to produce and test theoretical and technical knowledge.
