

# UNDERSTANDING THE RELATIONSHIPS BETWEEN LANDSCAPE ECOLOGY AND LANDSCAPE ARCHITECTURE AND PLANNING

Cecilia Herzog

Cecilia Polacow Herzog is an urban landscape planner. She is adjunct Professor at the Department of Architecture and Urbanism at the Pontifical Catholic University of Rio de Janeiro, where she is the Chair of the master's degree in Ecological Landscape Planning and Design. Cecilia has worked as an expert/consultant in Nature-Based Solutions and Sustainable Cities for several Brazilian and international organizations. She is a published scholar and a member of Brazilian and international organizations on sustainable development.
