Posthuman Architecture: A Search for Design Archetypes

Discussants
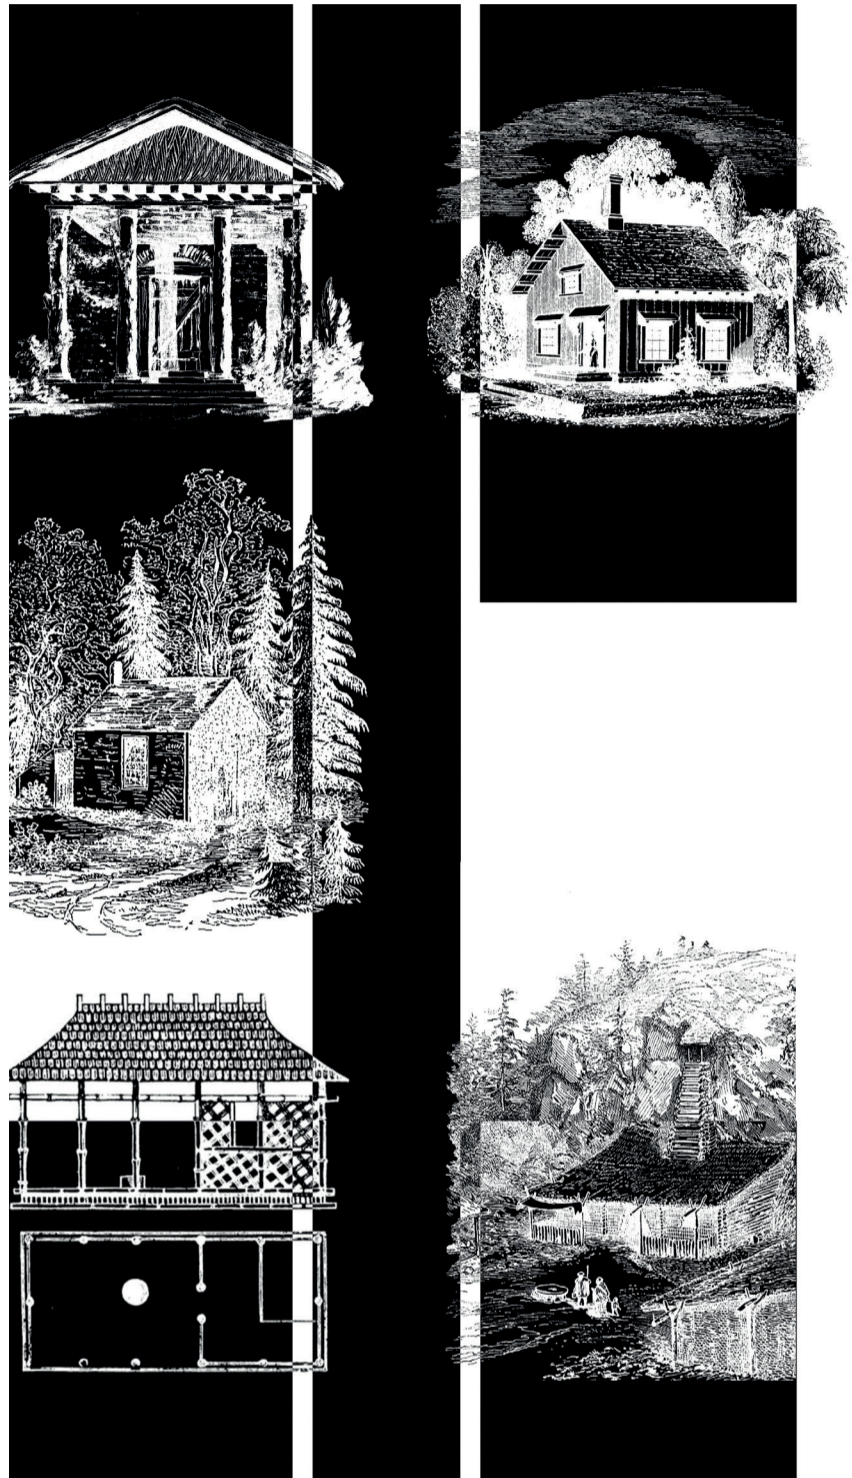

Fabrizia Berlingieri
D.A.St.U., Politecnico di Milano

Francesca Zanotto
D.A.St.U., Politecnico di Milano

For long, architectural design has been seen as an action that could be performed by people and for human people only. This research collects, reconstructs, and discusses archetypal models of posthuman architecture, to meet the functional and symbolic needs of new and different kinds of subjects.

A.U.I.D. Research Talks
