THEMATIC PRELIMINARY MEETINGS OF THE INTERNATIONAL SCIENTIFIC NETWORK EURAU

IN-PRESENCE / THE BODY AND THE SPACE

The role of corporeity in the era of virtualization

The next EURAU international conference – IN-PRESENCE / THE BODY AND THE SPACE – The Role of Corporeity in the Era of Virtualisation – will occur in Milan in June 2024.

The conference focuses on **the role of corporeality** in contemporary times and for the near future regarding the dimension of space **and its relationship to the spheres of architecture, the city and the environment**, interpreted as physical facts and processes.

To start discussing this topic in advance, we propose five **PREPARATORY THEMATIC MEETINGS ORGANISED BY EURAU NETWORK PARTNERS**.

Each meeting will introduce a different thematic area of the conference topic. The outcomes of the meetings will contribute to refining the thematic sessions of EURAU 2024 and inform the preparation of the open call. So, **EURAU24 invites you to contribute with comments and reflections**.

The aim is to activate a wide-ranging continuous discussion, called The Road to EURAU, fed by other forms of communication (a forum, an Instagram profile, a website), leading up to Milan 2024 as the final moment in which – IN-PRESENCE – will meet to draw conclusions.

The meetings are **OPEN TO EVERYONE** and are an integral part of EURAU 2024.
