

Lecture series organized by
Gennaro Postiglione, Francesca
Serrazanetti and Constanze Wolfgring

UAAH! Unconventional Affordable Housing!

This lecture series responds to the growing need to better understand the major transformations behind recent radical social changes and their impact on architecture and contemporary living.

The contributions reflect the commitment of contemporary architecture to design approaches that are responsive to today's challenges, navigating between unconventionality, affordability, sustainability, adaptive reuse, craft and beauty.

18th March 2025 - h.17.00

Gisela Lameira + Rui Ramos

FAUP Porto, Portugal

Gisela Lameira and Rui J. G. Ramos are the coordinators of the “Housing Think Tank: Knowledge Integration on multi-family residential buildings” [HoTT]: the project seeks to address the problems of contemporary housing structures as the key subject, bringing together, in a cooperative database repository, scattered scientific information on built experiences in several countries, from the early 20th century to the present.
