Dialogues on Fragility Matters: Housing Typology Evolution in Indian Cities

Spazio CRAFT, Politecnico di Milano, via Ampère 20, Milano.

This talk explores the evolution of apartment housing in India through the lens of typology and fragility.

Spanning a century, it examines how urban edges, housing blocks, and domestic units have been shaped - and strained - by regulation, production, and use in the context of rapid urban transformation and shifting social imaginaries.

SEMINAR 4 - PROGRAM

h. 10:00 -10:30 *Openings*Giulia Setti/DAStU
