Research Seminar

Spatial planning strategies and tools to develop cloudburst resilient cities.

*From Insights of Nordic Cities to
an Italian pilot project.*

Andrea Benedini

PhD Candidate, *Politecnico di Milano*

This PhD seminar reflects on the preliminary findings of ongoing doctoral research into the role of spatial planning in cloudburst adaptation. Drawing on case studies of Oslo and Copenhagen, the discussion will explore the potential integration of cloudburst adaptation into the Italian planning context using ecosystem services, green and blue infrastructure, and nature-based solutions.

Discussants:

Prof. **Christian Albert**, *Leibniz Universität Hannover*.

Prof. **Davide Geneletti**, *Università di Trento*.

Dr. **Peter Lacoere**, *KU Leuven*.

11th June 2025, h. 11.00

Edificio 12, sala riunioni.
